

AFG Arbonia-Forster Holding AG (Switzerland)

Case Study

Arbonia Forster Holding AG, headquartered in Switzerland, is a supplier to the international construction industry. Its 6000 employees are active at 12 manufacturing facilities, and the 50 sales companies generate around a billion Swiss Francs of sales per year.

A portion of AFG's business consists of the manufacture of door profiles and special doors, all of which are automated using drive systems by record. The doors at their headquarters in Arbon all feature drives provided by record.
