

The Squire's Landing, Circular Quay

Riferimento

Located at the northern end of the Overseas Passenger Terminal in The Rocks district, The Squire's Landing is Sydney's latest microbrewery, offering expansive 180 degree, front row views of Sydney Harbour.

For the entrance to the outdoor eating area, record Automatic Doors was engaged to supply and install an STA 20 automatic sliding door operator with a 15mm frameless glass door wing. Working within the confines of the existing terminal site, the operator was positioned directly below the structural steel framework of the access bridge above.
